Huron City Schools**

# The Luggage

When 1970's Technology Trumps Your GUI

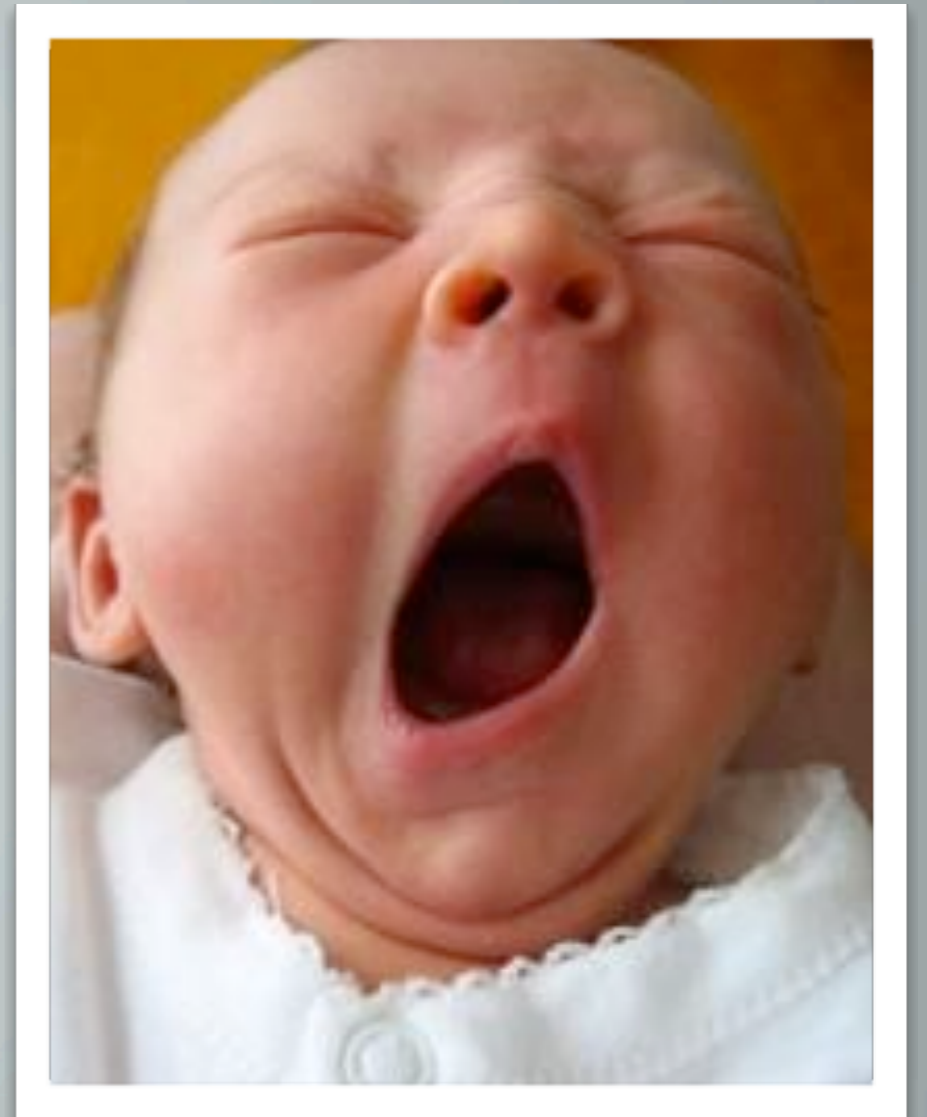

**Gary Larizza**

**PS Engineer  
Puppet Labs**

# Agenda

- Why Packaging?
- Problems with Packaging
- Problems with Packaging Apps
- What is The Luggage?
- Why The Luggage?
- Demo
- Obey!

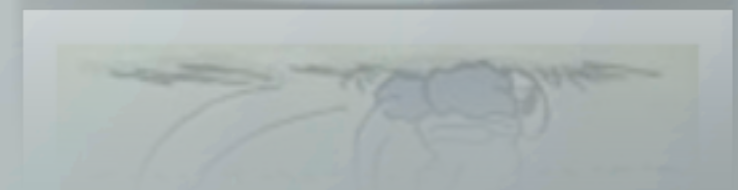

# Why Packaging?

- Modular
- Silent Installs
- Efficient and Simple
- Distribution

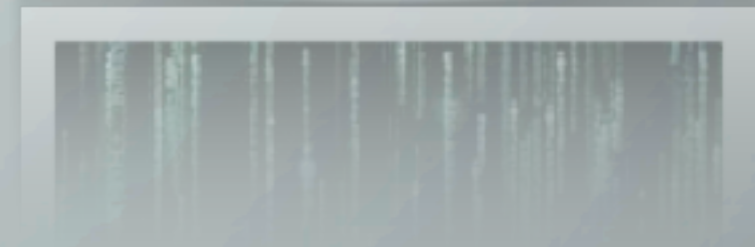

# The Problems with Packaging

- Non-standard packages
- Bait and switch
- Assumptions
- JETBD

# Problems with Packaging Apps

- Code Review
- Replication
- Portability
- Speed

# What is The Luggage?

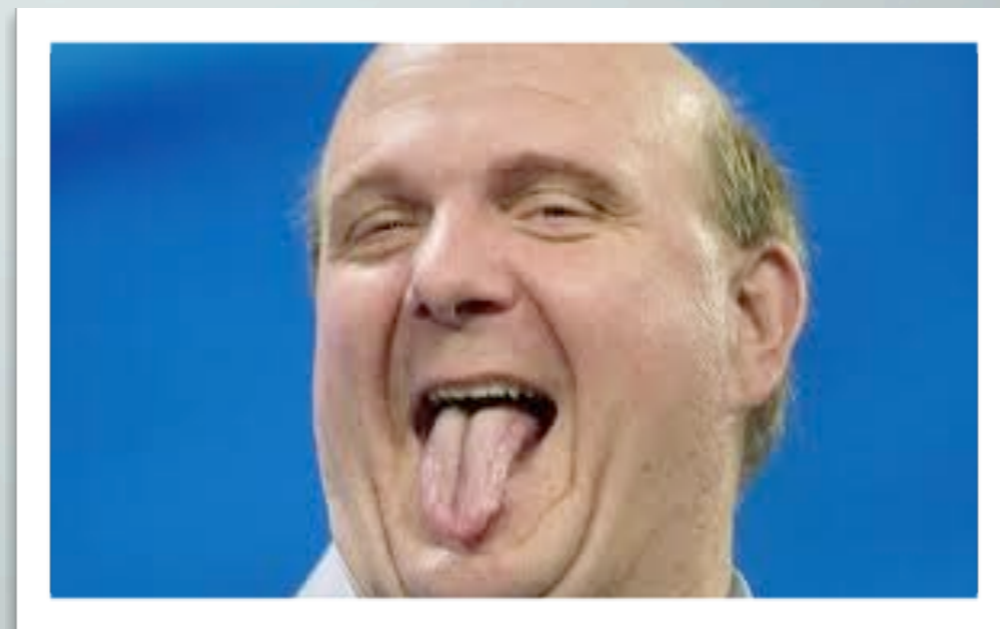

- Package Creation based on Makefiles
- Simplicity for speed's sake
- <http://github.com/unixorn/luggage>
- Requires XCode (for make binary)

# Why Luggage

- See: Problems
- Auditable
- Speed
- FOSS

# DANCE MONKEYBOY.

# OBEDY THE COMMANDMENTS

- GUI and Boot Volume
- Unnecessary Actions
- Licensing
- Pre/Postinstall scripts

<http://bit.ly/pkgcommandments>
